PUTNAM MANUPACTURING COMPANY,

NO. 13 PLATT STREET, NEW YORK. CLEVELAND, OHIO. B. C. NORTHROP, AGENT.

WHAT EVERYBODY KNOWS, VIZ:-That a simple machine is better than a complicated one; That a Wringer should be self-adjustable, durable and

That thumb-screws and fastenings cause delay and trouble That wood soaked in hot water will swell, shrink and split

That wood bearings for the shaft to run in will wear out; That the Putnam Wringer with or without cogwheels will That cogwheel regulators are not essential;

That the Potnam Wringer has all the advantages and not That all who have tested it pronounce it the best Wringer

few to convince the skeptical, if such there be; and we say to all, test the Putnam Wringer. Test it thoroughly,

with any and all others, and if not entirely satisfactory PUTNAM CLOTHES WRINGER. Testimony of Messrs. John W. Wheeler, of Cleveland, Ohio

GENTLENEN -I know from practical experience that from well The Putnam Wringer is as near perfect as possible, and I can cheerfully recommend it to be the best in use.

Many years' experience in the galvanizing business enables me to indorse the above statement in all particulars. JOHN C. LEFFERTS.

New York, January, 1861.

We have tested Putnam's Ciothes Wringer by practical working, and know that it will do. It is cheap, it is snaple, it requires no room whether at work or at rest; a child can operate it; it does its duty thoroughly, it saves time and it saves wear and tear. We carnestly advise all who have much washing to do, with all intelligent persons who have any, to bey this Wringer. It will pay for tested in a year at most.

BOARD WANTED-BY A GENTLEMAN. WIFE, third is required to the control of the control

The Putnam Clothes Wringer is a public benefaction. It is no longer "scoth, scold, and on a washing day," for this wringer rings out giad music from the worker, be a set wrings out no newdless sweat from the brow. Try it. Every-body likes it who has tried it. We can recommend it with the utmost configence. It does its work thoroughly, expeditionally, and without injury to the clothes. Every family should have one.—Christian intelligencer, January, 1804.

Among the notable labor saving machines, Putnan Clothes Wringer until holds a place. By using it oursely we can truly say that it not only saves much labor, but a so economical in that it causes less wear in wring clothes, and constants out one third the time. It is so eas managed that a saild can work it, wringing every arti

Washing Day,—The first little bit of sunshine that cam through the industrial of washing day was through the intervention of a wringing machine—Patham's Wringer, we believe Bridget rebelief at first, but she was induced to try it again and again, until she came to the conclusion, 'Shure, that is was a wonderful savin to the hands;' and certainly the clothes were never so rapidly and thoroughly wring in our house before, nor so quickly dred. We think Pathamia' Wringer is a great institution.—New York Iniustrated News, Jan. 3, 1884.

house before, nor so onlockly dred. We think l'ulman's Wringer is a great institution.—New York Hustrated News. Jan. 39, 186.

A Good Tathon.—If any lady wants a Clothes Wringer, we do not believe she can do isetter than obtain one of those made by the Futtam Manufacturing Company. It is strong, simple, easily managed, and not at all indule to get out of repair. We have tried one, and know that it is "a good thing."—The Union, Jan. 2, 1854.

Washing Made Easy.—Among all the inventions to assist in the labors of a laundry, there is nothing to surpass the Puttam Cothes Wringer. It is atrong and durable, lasting three times longer than any other, and so arranged with spiral springs that the backets and thinnest fabrics are alike wring almost entirely dry. We recommend this article to housefeeper as the beat Wringer in existence. We need not say anything about the useful advantage derived from a good Clothes Weinger. for it is hardly likely that any woman with common sense, who has ever tried to wring out heavy clothes with her own hand, is the old fashioned way, will sak for comments in its lavor.—Mrs. Hankin's Hone Garatte, Jan. 30, 1854.

PUTNAM CLOTHES WEINGER.—It is always with pleasure that we notice any real progress in the substitution of machinery for processes before performed by human toil. The Putnam Clothes Weing the stand highest stoops life for a long of the early weining clothes.

So and the standard of the closed it shoughed to the way of wringing by its spiral springs, so as to wring equally well a poets thandkerchief or a bed blanket.—X. Y. Freeman's Journal, Feb., 1854.

A few weeks since we made a brill notice of Petnam's Clothes Wringer. Having since seen it more fully tested, we are able to save the same and the same and the same and the same and the same save to save the same save to the fabrics. Whatever may be the merit of other wringers the week or are commend with confidence. Try it.—Christian Intelligencer, New York, March S, 1864.

PUTNAM MANUFACTURING COMPANY, AND CLEVELAND, OHIO.

S. C. NORTHROP, Agent. The American Advertising and Purchasing Agency will
